

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

William Jones,

CITY CHIMNEY SWEEP.

William Crosby.

ANNUAL REPORT

OF THE

CONTROLLER OF THE CITY OF DETROIT.

CONTROLLER'S OFFICE,
DETROIT, April 17, 1866. }

To the Honorable the Common Council:

GENTLEMEN—As required by the city charter, I have the honor to submit my third annual report of this office, exhibiting the actual condition of all the various funds of the city, with complete tabular statements of all the receipts and disbursements during the fiscal year 1865, which closed on the 31st day of March, 1866. The sources from which all receipts were derived, and the object for which each disbursement was made, are fully and clearly stated.

The entire indebtedness of the city, bonded and all other is,	\$454,920 57
From which deduct the resources of the Sinking Fund, including city bonds held by the Commissioners of the Sinking Fund	75,005 54

Leaves total liabilities to be provided for	\$379,915 03
---	--------------

On the tenth day of October next, city bonds issued October 10, 1864, for Soldiers' Bounties, to the amount of \$33,000, will mature.

No other bonds of the city fall due during the year. In 1867, \$33,000, and in 1868, \$23,000 of Soldiers' Bounty Bonds will become due; but in 1869, \$11,660 of the old Sewer Bonds, and \$68,000 of Soldiers' Bounty Bonds, making \$79,660, must be paid.

The Sinking Fund, well managed, will, I think, be able, without any direct taxation, to meet all these liabilities as fast as they occur.

The Commissioners of the Sinking Fund have, during the year, paid \$56,000 of the city bonds, and purchased in bonds not due to the amount of \$9600, and would gladly have purchased more had they been presented; the object being to save the interest.

The whole amount of city bonds now held by the Commissioners is	\$53,600 00
---	-------------

The balance in the Treasury, March 31, 1865, was	\$ 99,550 93
--	--------------

The receipts during the fiscal year have been	499,248 16
---	------------

Total	\$598,799 09
-------	--------------

The disbursements have been	\$524,840 92
-----------------------------	--------------

Balance in the Treasury, March 31, 1866, is	\$74,458 17
---	-------------

The expenditure of the Road Districts have this year, as heretofore, considerably exceeded their appropriations. This practice will probably continue, unless some better system for keeping the streets in repair shall be adopted.

The appropriation for the Poor Department (\$10,000) has also proved insufficient to meet the increased necessities of the poor.

For the General Road Fund and Park Improvement Fund no appropriations were made for the year, and their balances are exhausted.

The appropriations for all the other funds have proved ample, and their balances are good.

There has been paid on account of street opening during the year, \$3566.41.

Our splendid system of public sewers has been extended about three miles during the year. The description and extent and cost of all the public sewers are given in the accompanying tables.

The demands of the Board of Education have become very large. The appropriations for this fund have been as follows, to wit:

For 1862	\$35,295 50
For 1863	40,000 00
For 1864	45,000 00
For 1865	72,797 00

For the year we are now just entering upon, you are asked to grant to that fund \$81,130. Every citizen will, no doubt, cheerfully vote *all the money, however much, which is actually necessary to give to every child a good elementary education!* But does not this rapid increase in the annual expenditures make it proper to inquire whether *some reform or improvement* may not be made in the system, by which this rapid increase in expenditure may be somewhat checked, and, at the same time, accomplish the original object of free schools.

The interest on the city debts and all other liabilities of the city have been promptly met during the year, and the balance in the Interest Fund on the 31st of March last was \$9013.48.

The Fire Department has continued to give the same general satisfaction as in former years. The officers and men have been faithful and energetic, and for their devotion to their duties, and their courage in dangers, have merited and received universal commendation.

The receipts for licenses during the year were \$3847.93, against \$4718.92 the previous year.

The receipts from Market rents were \$4624.83: for the previous year, \$4501.32.

Our assessments are made each year, during December, January, February and March. Much property brought into the city after the first day of April therefore escapes taxation. An amendment of the charter should be asked for, which would permit all such property to be placed on the tax roll. The taxation now resting on our citizens would be very materially reduced if the vast mass of *real estate, cash, stocks and bonds* now held in this city by corporations and individuals, could be made to pay their fair and just share of the State and city taxes. Many millions of property in this city, equally protected with other property, annually escapes all contributions for the support of the city government. This great wrong should be constantly pressed upon the attention of the people till it is redressed.

All the departments of the city government have been well and faithfully conducted during the year, by the various officers having them in charge.

I again have the pleasure to assure your honorable body that the financial affairs of the city are in a good and satisfactory condition; that all just demands upon the Treasury

have been paid, and that although \$65,600 of the city debt have been paid during the year, the cash balance in the Treasury is \$74,458.17, being only \$25,092.76 less than the balance of the previous year.

Respectfully, etc.,

A. H. REDFIELD,
Controller.
